University of Minnesota - Duluth Tournament & Fundraiser

All proceeds went to [Rural Renewable Energy Alliance](#) (RREAL).

The tournament was played on the beautiful University of Minnesota - Duluth campus, overlooking Lake Superior. There were 11 teams and over 22 participants representing three different states. Teams came from Minnesota (several cities), Wisconsin, and Illinois. The event raised over \$440 for RREAL. The proceeds will be used to provide solar heating units for rural low-income families. The event had great handmade trophies and [Old Time Games](#) provided a kubb set for both the winner and second place.
